## Research Using American Records

**Carol Clingan & Paul Auerbach**

Sunday, November 16, 2008

1:30–4:30 PM

Temple Emanuel, Newton Centre

Two experienced researchers will partner for a presentation of sources available for American research and a case study of success in using them.

Carol Clingan will give an overview of the databases offered by Ancestry.com. She will also briefly introduce some other research sources, including the Steve Morse One-Step pages.

Paul Auerbach will present a case study of how he used these sources and a chance remark by a family member to identify a previously unknown great-grandfather and, ultimately, to connect with an entire missing branch of his family.

After the talk, there will be opportunities to do research and meet with other genealogists.

**Temple Emanuel** is at 385 Ward St., Newton Centre. For maps and detailed directions, visit our web page at <http://emanuel.jgsgb.org>.

Admission is free for members, \$5 for non-members.  
Refreshments will be served.
